

NORTHERN CALIFORNIA ENTOMOLOGY SOCIETY

Dr. Harry H. Laidlaw, Jr., Honey Bee Research Facility (Bee Biology)
Honey Bee Road, UC Davis Campus

From the east: Take I-80 through Davis to the Hwy 113 North, Woodland exit. Go north toward Woodland on 113, but take the immediate next exit (Hutchison – UCD) and fork to the left. Turn left on Hutchison, back over 113 (away from the main campus), and continue west about 1.3 miles. When you see the small green sign with a white airplane and arrow pointing to the left, turn left on Hopkins Road. Proceed south on Hopkins to the end of the farm field on the left. Turn left on Bee Biology Road (adjacent to the sewer pump pipes). The first building on the right is Bee Biology. Parking is free in front of the building or between the olives on both sides of the road, if it isn't too muddy.

From the west: Take I-80 through Dixon to Pedrick Road (If you miss Pedrick, take 113 north toward Woodland and follow the directions above). Exit onto Pedrick and turn left at the stop sign, go up over I-80. Proceed north on Pedrick a few miles. When you see grape vines on the right, you will be passing the southern edge of campus. When you see the 45 mph sign, you are rapidly approaching the intersection with Hutchison. Turn right on Hutchinson onto campus (if you get to the stop sign at "Cactus Corners," do a Uey and come back). Once on Hutch, about a mile down the road you will see a small green sign with a white airplane and an arrow pointing to the right, turn right. This is Hopkins Road. Proceed south on Hopkins to the end of the farm field on the left. Turn left on Bee Biology Road (adjacent to the sewer pump pipes). The first building on the right is Bee Biology. Parking is free in front of the building or between the olives on both sides of the road, if it isn't too muddy.

Lunch: Please order from the selection below by April 27th (or bring your own). (Use my e-mail address [ecmussen@ucdavis], leave a message on my telephone [530-752-0472], or FAX me at 530-752-1537.)

This year we are going to change things, a bit. We are going to try "sandwich or salad box lunches" from Noah's New York Bagels. **Sandwiches come with potato salad, dill pickle and fresh baked cookie** (of their choice). Below, you will find the sandwich selections. They will come as described, unless you wish to change something. The most likely change would be the "bread" for your sandwich. The sliced breads are 1. multigrain whole wheat; 2. harvest grain; 3. potato; 4. marbled rye; and 5. cornmeal rye bread. Then, there are foccacia, challah, or regular and "thin sliced," large diameter bagels. While visiting the Davis outlet I saw plain, sourdough, good egg, whole wheat, whole wheat sesame, pretzel, poppyseed, sesame, peppercorn potato, "everything" bagels and a "tuscan" bread (looks like a bunch of dinner rolls twisted together and is likely to not have salt = reduced taste). I believe that you can choose any one of these.

Sandwich Box Lunches

Roasted Turkey Breast (640 calories) – turkey, **cornmeal rye bread**, cheddar cheese, lettuce, onions, tomatoes, mayo, mustard

Pastrami (981 calories) – pastrami, **cornmeal rye bread**, cheddar cheese, lettuce, onion, tomatoes, mayo, mustard

Ham (656 calories) – ham, **cornmeal rye bread**, cheddar cheese, lettuce, onions, tomatoes, mayo, mustard

Albacore Tuna Salad (471 calories) – tuna salad, **cornmeal rye bread**, lettuce, onions, tomatoes

Chicken Salad (501 calories) – chicken salad, **multi-grain bread**, lettuce, onions, tomatoes

VegOut (408 calories) – sun-dried tomato shmear (flavored, whipped cream cheese) over cucumber, lettuce, onions, tomatoes, sprouts, in **cornmeal rye bread**

Salad Box Lunch

Harvest Chicken (331 calories) – Chopped mixed salad greens; diced, grilled chicken breast, topped with crisp apples, red grapes, dried cranberries, toasted almonds, and natural, light, raspberry vinaigrette. Choice of full sized bagel (your choice from above) and complementary cookie (their choice).

Chipotle Chicken (254 calories) – Chopped mixed salad greens; diced, grilled chicken breast, roasted corn and black bean salsa, diced tomatoes, and red peppers finished with an all natural chipotle vinaigrette. Choice of full sized bagel (your choice from above) and complementary cookie (their choice).

Please let me know the type of bread or bagel, kind of sandwich, and if you would like to order an **additional fresh fruit "cup"** (it is a lot larger than a cup), or a **yogurt parfait** to accompany the meal.

Remember, let me know on or before Friday, April 27th.

Good News! President Bob Case selected the appropriate speakers and topics to prompt CA DPR to give us 2.5 hours of Laws plus 1.5 hours of Other for this meeting.

Thursday, May 3rd, 2012

- 9:15 am Registration for Club Members and Guests (**with coffee**)
- 9:45 am “Resurgence of Bed Bugs and Current Effective Control Methods” – **Tanya Drlik** – Contra Costa County Health Services Department.
- 10:30 am “Protecting Invertebrates Listed as Threatened or Endangered Species in California” – **Darlene McGriff** – California Natural Diversity Database (California Department of Fish and Game).
- 11:15 am “California Forest Insect Conditions Going into 2012” – **Cynthia Snyder** – US Forest Service, Shasta-McCloud Management Unit.
- 12:00 pm **Lunch (See instructions above)**
- 1:00 pm “PG&E’s Use of Safe Harbor Agreements and Programmatic Permits to Protect Endangered Organisms on Utility Rights of Way” – **Peter Beesley** – PG&E.
- 1:45 pm “In-depth Look at Lacewings, an Augmentative California Biological Control Agent” – **Shaun Winterton** – CDFA Biocontrol.
- 2:30 pm Adjourn
